

Snowbasin Ski Resort

Last Updated Saturday, 27 October 2007

Situated

at the base of Snowbasin Ski and Summer Resort, this is a beautiful place to ski with the whole family and offers great food and day lodges. The Nordic trails normally open in mid to late December, depending on snow depth, and remain open until April. Daily grooming is provided by Snowbasin on 26km of classic and skating trails. The trails wind through beautiful glades and meadows under towering mountain peaks. Skier use is still light to moderate on weekends and holidays.

Snowbasin's Nordic trails are suitable for skiers of all abilities. There are several good starter trails at the resort called "The Meadows", "Maples", or "The Stadium" area. For longer and more difficult tours, head towards "Green Pond", "Art Nord trails" and the "Old Snow Basin Road" (maintained by the US Forest Service).

Parking

is in the lower lot (The Olympic Lot) and just steps from the trail head. There is no charge for Snowbasin's Nordic trails. Nordic ski rentals and instruction is available through the ski shop and ski school.

Trail Length: 26 km. Base Elevation: 6450'
